Set out below is an explanation of the measures introduced by the company pursuant to the King Code and the Listings Requirements.

A full analysis of the King III application can be viewed on our website under the "Financial Information" heading at www.ame.co.za

Each year no less than one-third of the non-executive directors of the board retires by rotation, as required by the Memorandum of Incorporation of the company.

Mr ACG Molusi and Mr N Sooka will retire by rotation at the next annual general meeting and, being eligible, are available for re-election.

BOARD APPOINTMENTS

Appointments to the board are done in a formal and transparent manner and are a matter of deliberation by the board. In general, the appointment of a nomination committee is therefore not deemed necessary.

BOARD OF DIRECTORS

The board presently comprises of three independent non-executive directors, two executive directors and an independent non-executive chairman. With the JSE's approval, AME does not have a CEO as the managing directors of AME's largest subsidiaries report on the activities of those companies and attend the AME board meetings where they answer any questions the board may have regarding those businesses.

Mr ACG Molusi and Mr MJ Prinsloo have served on the board as independent non-executive chairman and member of the board and committees, respectively, for longer than 10 years. These individuals are directors of several other companies, are not involved in the company at any level, are there to give guidance only and have no dealings either directly or indirectly with the company or any of its subsidiaries. The board has assessed their service and independence and their judgement was not considered to be affected or impaired by the length of service.

The independence of all non-executive directors is reviewed each year regardless of their length of service. Independence is maintained by ensuring that there are no material transactions between the directors and the company, no loan accounts or share transactions, nor any operational involvement in the company.

There is a clear division of responsibilities at board level, with the various sub-committees tasked with executing their objectives independently from the board. Decision-making at board level is on an equal voting basis and no one individual director has unfettered powers of decision making.

The board is scheduled to meet a minimum of four times in the year.

FINANCIAL

The directors acknowledge responsibility for the preparation of the annual financial statements which, in their opinion, fairly present the state of affairs of the company and the group at 31 March 2016 and their operations and cash flows for the year then ended. The external auditor is responsible for reporting on the fair presentation of these financial statements.

The financial statements set out in this report have been prepared by the directors in accordance with International Financial Reporting Standards and are consistent with those for the previous annual financial statements.

They are based on appropriate accounting policies, which have been consistently applied and which are supported by reasonable and prudent judgements and estimates.

The directors also prepare the other information included in the annual report and are responsible for both its accuracy and its consistency with the financial statements. The financial statements have been audited by independent auditor Grant Thornton Johannesburg Partnership, which was given unrestricted access to all financial records and related data, including minutes of all meetings of shareholders, the board of directors and committees of the board.

The directors believe that representations made to the independent auditor during its audit were valid and appropriate.

RISK MANAGEMENT

The purpose of management is to identify risk and assess its impact on the group. This is a continuing process, commencing at board level and filtered down to all levels of management by reporting and checking mechanisms. Risk is addressed at board level and no risk committee has therefore been appointed.

Audit committee

The committee presently comprises:

- N Sooka (Chairman)*
- MJ Prinsloo (Member)*
- KL Tlhabane (Member)*
(appointed 26 November 2015)

* *Independent non-executive director*

The audit committee has adopted a written charter based on the Companies Act 71 of 2008 ("the Companies Act") and the approved Memorandum of Incorporation. The audit committee members have considered and are of the opinion that they are adequately independent from the company and group and management thereof, within the full spirit of the Code of Corporate Practices and Conduct.

The independent auditor has unrestricted access to the committee.

The committee meetings focus on financial reporting requirements, both internal and external, and review fees charged by the independent auditor (for audit and consulting assignments) and directors for their professional services beyond their roles as directors, and the appointment of the independent auditors.

Due to the size of the company and its subsidiaries an internal audit department is not deemed functional or effective. The size of the company allows the senior management to oversee and control daily functions and manage risk on a hands-on basis.

The scope and objectivity of the external auditor were reviewed and the appointment of the external auditor complies with the Companies Act and with the requirements of the JSE. The use of the independent auditor for non-audit services is reviewed based on materiality of work done to ensure that the independence of the auditor is maintained.

At the date of this report, no queries have been received relating to accounting practices of the group, or to the content of auditing of the group's financial statements, or to any related matter.

The audit committee is responsible for evaluating the expertise and experience of the financial director and M Mynhardt will continue as the Executive Financial Director. It has also considered and found appropriate the expertise and adequacy of resources of the finance

function and experience of the senior members of management responsible for the finance function.

The audit committee has satisfied its responsibilities for the year in compliance with its charter.

All board sub-committees are scheduled to meet at least twice a year, however, they will meet additionally if considered necessary to perform the functions for which they were established.

INTERNAL CONTROLS

The system of internal controls established by management is considered sufficient to provide reasonable assurance as to the integrity and reliability of the financial statements and to adequately safeguard, verify and maintain accountability of the group's assets, for the benefit of all stakeholders.

EMPLOYMENT EQUITY AND SKILLS DEVELOPMENT

Throughout the group, equitable employment policies are in place to ensure individuals from all demographic groupings are given the opportunity to be employed and trained by the group. The group places an increased emphasis on maintaining and training those members of staff who can provide excellent service in a small team environment. To this end, the staff incentive scheme will provide financial rewards appropriate to the personal performance of individual staff members.

HIV/AIDS

The board has given consideration to the HIV/AIDS pandemic and its possible impact on the group's human resources, and does not consider it a major risk.

GOING CONCERN

The going concern basis has been adopted in preparing the financial statements. The current strong financial position and the continued tight control on expenditures and cash flows, give the directors reason to believe that the business of the group will continue to function as a going concern for the foreseeable future.

COMPANY SECRETARIAL AND PROFESSIONAL ADVICE

The company has a dedicated company secretary to ensure compliance with the Companies Act and JSE Listings Requirements. The company secretary is not a director of the company and has no direct or indirect dealings with the company or any of its subsidiaries. Her remuneration is paid on an arms' length basis.

All directors have unlimited access to the advice and services of the company secretary. All directors are entitled to seek independent professional advice, at the group's expense, concerning the affairs of the group, after obtaining the approval of the chairman. The company secretary is responsible to the board to ensure that the board procedures are followed.

The annual certificate by the company secretary is reflected on page 10.

As required by the JSE, the board has considered the skills, qualifications and performance of the company secretary, Chrisna Roberts. The board is satisfied with her continuing suitability for the position. Her biographic details can be found on page 3.

SUSTAINABILITY

Licence

The group's continued existence is dependent on broadcasting licences being granted to OFM and Algoa FM. Both stations were granted a 10-year licence in 2008. There is no reason to believe that the licences will not be renewed in the normal course of business.

Needletime

On 14 March 2014 The Supreme Court of Appeal in Bloemfontein ("SCA") delivered its judgment on the National Association of Broadcasters ("NAB") appeal against the judgment of the Copyright Tribunal on the appropriate Needletime royalty (subsequently amended on 19 March 2014). The application by The South African Music Performers Rights Association ("SAMPRO") to appeal this judgment was rejected by the SCA. Negotiations are still ongoing to determine if and from which date royalties are payable prior to the judgement date.

The directors consider that adequate provision has been made for this liability, under accruals, note 13.

TRANSFORMATION

Transformation is an important core value. During 2013 an external consultant undertook research about transformation in the group and various recommendations were implemented. This process focuses on growing the talent pool, identifying talent and suitable mentoring initiatives to groom these individuals into their future roles within the group. The group is also taking part in the South African Revenue Services Employment Tax Incentive Programme, whereby internships will be created for individuals between the ages of 18 and 29, receiving valuable on-the-job training and expanding the talent pool for the group.

NEW LICENCES ISSUED BY ICASA

The new commercial radio licenses in the Eastern Cape and Bloemfontein have been granted. The licensed broadcast area for the new secondary market station in the Eastern Cape falls outside of the Algoa FM footprint in the Eastern Cape and the proposed music format does not conflict with that of Algoa FM.

Beat FM is a new FM license that has been awarded to Histotrim. The initial spectrum allocation is a single 30KW transmitter in Bloemfontein. The MSG group have been publicising a launch date in the second half of 2016. The station aims to attract a LSM 7-10 audience in the Free State. While the new licenses in the central South African region will invariably bring some degree of competition, these new entrants' music format is unlikely to conflict with that of OFM.

CHAIRMAN'S REVIEW

REVIEW OF THE YEAR

Trading conditions for the year under review remained tough. Revenue decreased by 6% to R238,3 million (2015: R254,6 million) and total comprehensive income decreased by 5% to R53,6 million (2015: R56,6 million).

The comprehensive income attributable to equity holders of the parent amounted to R48 million (2015: R49,6 million) with earnings per share of 591,2 cents (2015: 608,2 cents). Headline earnings per share was 587,6 cents (2015: 612,5 cents).

After paying tax of R21,5 million (2015: R23,9 million), the group generated R60,5 million (2015: R55,3 million) in cash from its operating activities. The group invested an additional R5,5 million (2015: R19,6 million) on the development of the new home of the Central Media Group in Bloemfontein and spent R14,1 million (2015: R9,4 million) on capital expenditure. R3,8 million (2015: R83 000) went towards the repurchase of 39 200 (2015: 1 000) shares. During the year the group paid out dividends of R28,2 million (2015: R24,8 million) to the equity holders of the company. The group ended the year with cash resources of R114,1 million (2015: R105,5 million).

OPERATIONS

Low business confidence remains a key challenge across all sectors resulting in demanding trading conditions. Innovation and tight cost control remain an imperative.

Algoa FM delivered another solid performance with year-on-year revenue marginally up and listenership figures slightly down from last year. Significant cost saving measures were implemented by management which contributed to increased profitability. Algoa FM introduced a new events strategy which has the potential to further grow revenue via sponsorship sales of the Big Walk and Algoa Live events.

Central Media Group moved into its custom designed building halfway through the year. This resulted in some disruption, but the consolidation of staff into one building and morale boost from the impressive new accommodation bodes well for the future. Redstar has grown its Promotions portfolio into a national footprint, whilst organising the inaugural Miway Sevens. Mahareng delivered good results given the prevailing market conditions, and Bloemfontein Courant extended its influence and continued to improve profitability. Digital Platforms increased its client portfolio, extending now into Agriculture, Media and Government clients. OFM's audience declined slightly, but in line with demographic changes in the provinces footprint. Overall, the group emerged well from a tumultuous year.

RadioHeads has not been spared the difficult times being experienced by the media industry. The economic slowdown has forced clients to move campaigns to the new financial year. Revenue has been severely affected, but RadioHeads remains geared to take advantage of the expected increase in media spend after the local government elections.

Sales revenue at **United Stations** was down on the previous year, due to the loss of three radio station clients. These stations have since been replaced by five new client stations, covering Gauteng, KwaZulu-Natal, Mpumalanga, North West and the Western Cape. The team is focused on expanding the range of services it offers and remains well positioned to serve its radio stations in the market, despite the challenging conditions that continue to prevail.

DIVIDENDS

An interim dividend (dividend number 8) of 100 cents per ordinary share (gross). (2014: 100 cents gross) was paid on 18 January 2016. The final dividend (dividend number 9) for the year ended 31 March 2016 is 250 cents per ordinary share (gross) (2015: 250 cents per share).

PROSPECTS

The board expects the trading conditions for the 2017 year to remain challenging.

STATEMENT OF RESPONSIBILITY AND APPROVAL BY THE BOARD OF DIRECTORS

The directors are required in terms of the Companies Act of South Africa to maintain adequate accounting records and are responsible for the content and integrity of the annual financial statements and related financial information included in this report. It is their responsibility to ensure that the annual financial statements fairly present the state of affairs of the company and the group as at the end of the financial year and the results of its operations and cash flows for the period then ended, in conformity with International Financial Reporting Standards, the Companies Act and the Listings Requirements of the Johannesburg Stock Exchange.

The annual financial statements are prepared in accordance with International Financial Reporting Standards and are based upon appropriate accounting policies consistently applied and supported by reasonable and prudent judgements and estimates.

The directors acknowledge that they are ultimately responsible for the system of internal financial control established by the company and place considerable importance on maintaining a strong control environment. To enable the directors to meet these responsibilities, the board sets standards for internal control aimed at reducing the risk of error or loss in a cost-effective manner. The standards include the proper delegation of responsibilities within a clearly defined framework, effective accounting procedures and adequate segregation of duties to ensure an acceptable level of risk. These controls are monitored throughout the group and all employees are required to maintain the highest ethical standards in ensuring the company's and group's business is conducted in a manner that in all reasonable circumstances is above reproach. The focus of risk management in the group is on identifying, assessing, managing and monitoring all known forms of risk across the company and group. While operating risk cannot be fully eliminated, the group endeavours to minimise it by ensuring that appropriate infrastructure, controls, systems and ethical behaviour are applied and managed within pre-determined procedures and constraints.

The directors are of the opinion, based on the information and explanations given by management, that the system of internal control provides reasonable assurance that the financial records may be relied on

for the preparation of the annual financial statements. However, any system of internal financial control can provide only reasonable, and not absolute, assurance against material misstatement or loss.

The directors have reviewed the group's cash flow forecast for the year to 31 March 2017 and, in the light of this review and the current financial position, they are satisfied that the group has or has access to adequate resources to continue in operational existence for the foreseeable future.

The auditor is responsible for reporting on whether the financial statements are fairly presented in accordance with the applicable financial reporting framework. The financial statements have been examined by the group's external auditor and its report is presented on page 16.

The annual financial statements set out on pages 17 to 51, which have been prepared on the going concern basis, were approved by the board of directors and are signed on its behalf by:

TERMS OF REFERENCE

The audit committee has adopted a written charter based on the Act 7 and the Memorandum of Incorporation that has been approved by the board of directors.

The audit committee has conducted its affairs and discharged all its responsibilities during the financial year under review, in compliance therewith.

The charter is available on request from the company secretary.

OBJECTIVE AND SCOPE

The purpose of the audit committee is to assist the board in carrying out its duties relating to accounting policies, internal controls, financial reporting practises, identification of exposure to significant risk and setting principles for recommending the use of external auditors for non-audit services.

MEMBERSHIP

The committee comprises Messers. N Sooka (Chairman), MJ Prinsloo and KL Tlhabane. All the members are independent non-executive directors.

Mr W Tshuma resigned on 11 June 2015 and Mr KL Tlhabane was appointed on 26 November 2015 to the audit committee.

The Audit committee members have considered and are of the opinion that they are adequately independent from the company and group and management thereof, within the full spirit of the Code of Corporate Practices and Conduct.

The external auditor has unrestricted access to the audit committee, and attends all meetings dealing with the external audit and annual financial statements by standing invitation.

The financial director attends all meetings by standing invitation.

EXTERNAL AUDIT

The committee has evaluated the independence of the external auditor and is satisfied that the external auditor has remained independent as defined by the Act.

Both audit and non-audit services performed by the external auditor were reviewed and approved. There is a formal procedure that governs the process whereby the auditor is considered for non-audit services, and each engagement letter for such work is reviewed by the committee.

The committee, in consultation with executive management, agreed to an audit fee for the 2016 financial year. The fee is considered appropriate for the work that was done. Audit fees are disclosed in note 18 to the financial statements.

Meetings were held with the external auditor and no matters of material concern were raised.

The committee reviewed the performance of the external auditor and nominated and recommend for approval at the annual general meeting, Grant Thornton Johannesburg Partnership, as the external auditor for the 2017 financial year. Ms MA Da Costa has completed her fifth year as independent audit partner and according to rotation requirements will step down as the audit partner for the company and group. She is thanked for her service during her five year term.

FINANCIAL DIRECTOR

As required in terms of the JSE Listings Requirements, the committee has satisfied itself that the company's financial director, Mrs M Mynhardt, has the appropriate expertise and experience to meet the responsibilities of her position and confirmed her suitability for the continued appointment as financial director in terms of the JSE Listings Requirements.

COMMITTEE ACTIVITIES

During the financial year 31 March 2016 the committee performed its duties in terms of its charter; a summary of the main activities is set out below.

- Nominated the appointment and retention of the external auditor, Grant Thornton Johannesburg Partnership, (with the designated partner for 2016 being Ms MA Da Costa) after satisfying itself, through inquiry, that Grant Thornton Johannesburg Partnership is independent.
- Managed the external audit function, including:
 - nature and scope of the audit engagement
 - determined the fees for the audit
 - determined the nature and extent of any other non-audit services, ensuring they are not material and do not have any impact on their independence
- Reviewed the going concern assumptions as prepared by management for the company and the group
- Reviewed the accounting practices and internal controls of the company and group
- Reviewed the annual report and annual financial statements taken as a whole to ensure they fairly present a balanced and understandable assessment of the company's financial position, performance and prospects
- Reviewed the external auditor's management letters and management's response to these letters
- Received and dealt appropriately with any concerns or queries
- Considered and satisfied itself on the appropriateness of the experience and expertise of the financial director as well as the adequacy of the finance functions and its resources.

RECOMMENDATION OF ANNUAL FINANCIAL STATEMENTS

The committee evaluated the annual financial statements for the year ended 31 March 2016 and considered that they comply in all material aspects with the requirements of the Act and International Financial Reporting Standards. The committee has therefore recommended the approval of the annual financial statements by the board. The board has subsequently approved the annual financial statements which will be open for discussion at the forthcoming annual general meeting.

Grant Thornton Johannesburg Partnership, the external auditor, have provided the shareholders with an unqualified independent audit opinion on whether the financial statements for the year ended 31 March 2016 fairly present, in all material respects, the financial results for the year and the position of the company and the group as at 31 March 2016.

DIRECTORS' RESPONSIBILITY FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The company's directors are responsible for the preparation and fair presentation of these consolidated and separate financial statements in accordance with International Financial Reporting Standards, and the requirements of the Companies Act of South Africa, and for such internal controls as the directors determine is necessary to enable the preparation of consolidated and separate financial statements that are free from material misstatements, whether due to fraud or error.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on these consolidated and separate financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated and separate financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.

An audit also includes evaluation of the appropriateness of accounting policies used and the reasonableness of accounting estimates made by directors, as well as evaluation of the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

OPINION

In our opinion, the consolidated and separate financial statements present fairly, in all material respects, the consolidated and separate financial position of African Media Entertainment Limited as at 31 March 2016 and its consolidated and separate financial performance and consolidated and separate cash flows for the year then ended in accordance with International Financial Reporting Standards, and the requirements of the Companies Act of South Africa.

OTHER REPORTS REQUIRED BY THE COMPANY

These reports are the responsibility of the directors and respective prepares. Based on reading these reports we have not identified material inconsistencies between these reports and the audited consolidated and separate financial statements. However, we have not audited these reports and accordingly do not express an opinion on these reports.

NOTES TO THE FINANCIAL STATEMENTS

for the year ended 31 March 2016

1. ACCOUNTING POLICIES

1.1 Basis of preparation

The financial statements are prepared in accordance with International Financial Reporting Standards ("IFRS"), the SAICA Financial Reporting guide as issued by the Accounting Practices Committee, the financial reporting pronouncements as issued by the Financial Reporting Standards Council, the Companies Act of 2008, as amended, and the JSE Listings Requirements on a basis consistent with the policies and methods of computation as used in the annual financial statements for the year ended 31 March 2015.

The financial statements are prepared under the historical cost convention, except for financial instruments which are accounted for in terms of IAS 39.

The policies set out below have been consistently applied to all the periods presented, except for new standards and interpretations disclosed in note 2 of the financial statements.

1.2 Basis of consolidation

The consolidated financial statements incorporate the financial statements of the company, entities controlled by the company ("its subsidiaries") and entities over which the company exerts significant influence ("its associates"). Control is achieved where the company is exposed, or has rights to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity.

The results of subsidiaries acquired or disposed of during the year are included in the consolidated statements of profit or loss and other comprehensive income, from the effective date of acquisition or up to the effective date of disposal, as appropriate. The acquisition method of accounting is used to account for the acquisition of subsidiaries by the group. Identifiable assets, liabilities and contingent liabilities acquired or assumed are initially measured at their respective fair values at acquisition date.

All intra-group transactions, balances, income and expenses and unrealised gains and losses, are eliminated in full on consolidation.

Non-controlling interest holders' interest in the net assets (excluding goodwill) of consolidated subsidiaries are identified separately from the group's equity therein. Non-controlling interest holders' interests consist of the amount of those interests at the date of the original business combination and the non-controlling interest holders' share of changes in equity since the date of the combination.

When the proportion of the equity held by non-controlling interests changes, the group recognises directly in equity any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received, and attribute it to the owners of the parent.

Investments in associates are accounted for by way of the equity method and initially recognised at cost.

The group's investment includes goodwill identified on acquisition, net of any accumulated impairment loss and is adjusted for the group's share of the associates post acquisition reserve movements.

When the group's share of losses equals to or exceeds its interest in the associate, the group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the associate. Unrealised gains and losses are eliminated to the extent of the group's shareholding. Unrealised losses are only eliminated provided they do not indicate a potential impairment.

Costs associated with the acquisition are expensed.

1.3 Significant judgements

The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the group's accounting policies. Judgements made by management in applying the accounting policies are:

Asset lives and residual values

Property, plant and equipment is depreciated over its useful life, taking into account residual values, where appropriate. The actual lives of the assets and residual values are assessed at each reporting date and may vary depending on a number of factors. In re-assessing asset lives, factors such as technological innovation and maintenance programmes are taken into account. Residual value assessments consider issues such as market conditions, the remaining life of the asset and projected disposal values.

NOTES TO THE FINANCIAL STATEMENTS CONTINUED

for the year ended 31 March 2016

1. ACCOUNTING POLICIES CONTINUED

1.3 Significant judgements continued

Deferred tax assets

Deferred tax assets are recognised to the extent it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Future taxable profits are estimated based on business plans which include estimates and assumptions regarding economic growth, inflation, taxation rates and competitive forces.

Impairment of assets

Property, plant and equipment, as well as financial and non-financial assets, are assessed at each reporting date for indications that impairment might exist. These assets are tested for impairment if there is reason to believe that an impairment may be necessary. The future cash flows expected to be generated by the assets are projected, taking into account market conditions and the expected useful lives of the assets. The present value of these cash flows, determined using an appropriate discount rate, is compared to the current carrying value and, if lower, the assets are impaired to the present value. Refer to note 4 – Goodwill.

Options granted

Management used the Black-Scholes Merton Option Valuation Model to determine the fair value of the cash settled options and units at issue date. Additional details regarding the estimates are included in note 24 – Share based payments.

1.4 Goodwill

Goodwill is initially measured as the excess of cost of the business combination over the group's interest of the fair value of the net identifiable assets, liabilities and contingent liabilities.

Subsequently goodwill is carried at cost less any accumulated impairment. Goodwill is tested at least annually for impairment.

1.5 Property, plant and equipment

Property, plant and equipment is initially recorded at cost. Impairment losses and reversal of impairment losses are recognised in the statement of profit or loss and other comprehensive income. Costs include costs incurred initially to acquire an item of property, plant and equipment and costs incurred subsequently to add to, or replace part of it.

Depreciation is calculated on the straight-line method, to write off the cost of each asset to their residual values over their estimated useful lives. The depreciation rates applicable to each category of property, plant and equipment are as follows:

• Land	not depreciated
• Buildings	1,25%
• Electronic equipment	20% – 33%
• Motor vehicles	20% – 25%
• Office equipment	10% – 20%
• Leasehold improvements	shorter of useful life or the remaining period of the lease

The carrying values of property, plant and equipment are reviewed at each financial reporting date for impairment when events or changes in circumstances indicate the carrying value may not be recoverable. If any such indication exists and where the carrying values exceed the estimated recoverable amount, the assets or cash-generating units are written down to their recoverable amount. Impairment losses are recognised in the statement of profit or loss and other comprehensive income immediately.

1. ACCOUNTING POLICIES CONTINUED

1.5 Property, plant and equipment continued

Leasehold improvements are depreciated over the shorter of the remaining lease term and the useful life of the asset. The useful lives and residual values of property, plant and equipment are assessed annually and subsequently carried at cost less accumulated depreciation and impairment. Gains and losses on disposal of property, plant and equipment are determined by reference to their carrying amount and are taken into account in determining operating profit.

1.6 Investments in subsidiaries

In the company's separate financial statements, investments in subsidiaries are carried at cost less accumulated impairment. The cost of an investment in a subsidiary is measured at the fair value, at the date of exchange, of assets given, liabilities incurred or assumed, and equity instruments issued by the company.

1.7 Investments in associates

Associates are entities over which the group has significant influence but not control, generally accompanying a shareholding between 20% and 50% of the voting right. Investments in associates are accounted for at cost less accumulated impairment losses in the company's separate financial statements. At group level these investments are initially measured at cost and subsequently using the equity method. The group's investments in associates include goodwill identified on acquisition (net of any accumulated impairment loss).

The group's share of the associates post acquisition profits or losses is recognised in profit and loss and its share of post-acquisition movements in other comprehensive income is recognised in reserves. The cumulative post-acquisition movements are adjusted against the carrying amount of the investment. When the group's share of losses in an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the associate.

1.8 Impairment of assets

The group assesses at each reporting date whether there is any indication that objective evidence exists that might indicate that an asset or group of assets is impaired. Irrespective of whether there is any indication of impairment, the group also tests goodwill for impairment annually. If there is any indication that an asset may be impaired, the recoverable amount is estimated for the individual asset. If it is not possible to estimate the recoverable amount of the individual asset, the recoverable amount of the cash-generating unit to which the asset belongs is determined.

The recoverable amount of an asset or a cash-generating unit is the higher of its fair value, less costs to sell and its value in use.

If the recoverable amount of an asset is less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. That reduction is an impairment loss.

An impairment loss of assets carried at cost less any accumulated depreciation or amortisation is recognised immediately in the statement of profit or loss and other comprehensive income. Goodwill acquired in a business combination is allocated from the acquisition date to each of the cash-generating units, or groups of cash-generating units, that are expected to benefit from the synergies of the combination.

NOTES TO THE FINANCIAL STATEMENTS CONTINUED

for the year ended 31 March 2016

1. ACCOUNTING POLICIES CONTINUED

1.8 Impairment of assets continued

An impairment loss is recognised for cash-generating units if the recoverable amount of the unit is less than the carrying amount of the units.

The impairment loss is allocated to reduce the carrying amount of the assets of the unit in the following order:

- first, to reduce the carrying amount of any goodwill allocated to the cash-generating unit; and then
- to the other assets of the unit, *pro rata* on the basis of the carrying amount of each asset in the unit.

The group assesses at each reporting date whether there is any indication that an impairment loss recognised in prior periods for assets, other than goodwill, may no longer exist or may have decreased.

If any such indication exists, the recoverable amounts of those assets are estimated.

The increased carrying amount of an asset, other than goodwill, attributable to a reversal of an impairment loss does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior periods. A reversal of an impairment loss of assets carried at cost less accumulated depreciation or amortisation, other than goodwill, is recognised immediately in the statement of profit or loss and other comprehensive income.

In the case of available-for-sale financial assets, a significant or prolonged decline in the fair value of the instrument below its cost is considered as an indicator of impairment. If such an indicator exists, the cumulative loss (measured as the difference between the acquisition cost and the current fair value less any impairment loss on that instrument previously recognised in the statement of comprehensive income) is removed from equity and recognised in profit and loss.

1.9 Leased assets

Leases of property, plant and equipment where the company assumes substantially all the benefits and risks of ownership are classified as finance leases. Finance leases are recognised at the lower of the fair value of the asset and the present value of the minimum lease payments.

Each lease payment is allocated between the liability and finance charges to achieve a constant rate on the finance balance outstanding. The corresponding rental obligations, net of finance charges are included in other long-term payables. The interest element of the finance charge is charged to the statement of profit or loss and other comprehensive income over the lease period. The property, plant and equipment acquired under finance leasing contracts are depreciated over the shorter of the assets useful life and the period of the lease.

Leases of property, plant and equipment where the lessor retains substantially all the risks and rewards of ownership, are classified as operating leases. Payments made under operating leases are charged to the statement of comprehensive income on a straight line basis over the period of the lease with the difference between this amount and the contracted amount being recognised as a liability.

1.10 Taxation

Current tax assets and liabilities

Current tax for current and prior periods is, to the extent unpaid, recognised as a liability. If the amount already paid in respect of current and prior periods exceeds the amount due for those periods, the excess is recognised as an asset.

Current tax liabilities/(assets) for the current and prior periods are measured at the amount expected to be paid to/(recovered from) the tax authorities, using the tax rates (and tax laws) that have been enacted or substantively enacted by the reporting date.

1. ACCOUNTING POLICIES CONTINUED

1.10 Taxation continued

Deferred tax assets and liabilities

Deferred taxation is provided using a statement of financial position liability method on all temporary differences between the carrying amounts, for financial reporting purposes, and the amounts used for taxation purposes, except for differences relating to goodwill which are not deductible for taxation purposes and the initial recognition of assets or liabilities in a transaction, other than a business combination that, at the time of the transaction, affects neither accounting nor taxable profit or loss.

Deferred tax is provided on temporary differences arising on investments in subsidiaries and associates, except where the timing of the reversal of the temporary difference is controlled by the group and it is probable that the temporary difference will not reverse in the foreseeable future.

A deferred tax asset is recognised to the extent that it is probable that future taxable profits will be available against which the associated unused tax losses and deductible temporary differences can be utilised.

Tax expenses

Current and deferred taxes are recognised as income or an expense and included in profit or loss for the period, except to the extent that the taxation arises from:

- a transaction or event which is recognised, in the same or a different period, to other comprehensive income or,
- a business combination.

Current taxation and deferred taxes are charged or credited to other comprehensive income if the taxation relates to items that are credited or charged, in the same or a different period, to other comprehensive income. Current taxation and deferred taxes are charged or credited directly to equity if the taxation relates to items that are credited or charged, in the same or a different period, directly in equity.

1.11 Financial instruments

Initial recognition and measurement

The group classifies financial instruments, or their component parts, on initial recognition as a financial asset, a financial liability or an equity instrument in accordance with the substance of the contractual arrangement.

Financial assets and financial liabilities are recognised when the group becomes party to the contractual provisions of the instrument. Financial assets are initially measured at fair value plus transaction cost.

Transaction costs in respect of financial assets classified as, at fair value through profit or loss, are expensed.

Transaction costs in respect of financial liabilities classified as at fair value through profit or loss are expensed.

Financial assets

A financial asset is an asset that is cash, an equity instrument of another entity, a contractual right to receive cash or another financial asset from another entity, or to exchange financial assets or financial liabilities with another entity under conditions that are potentially favourable to the entity.

Trade and other receivables are classified as receivables and loans and are measured at amortised cost, using the effective interest rate method, less allowance for impairment of receivables. Write downs of these assets are allocated against the allowance for impairment of receivables. The movement in the allowance for impairment of receivables is recognised in profit and loss and any subsequent recoveries of amounts previously written off are credited to profit and loss.

Other investments are classified as available-for-sale financial assets. These investments are carried at fair value with any gains or losses being recognised in other comprehensive income, until the financial asset is derecognised, at which time the cumulative gain or loss previously recognised in equity is recognised in the statement of comprehensive income. Fair value, for this purpose, is market value of investments if listed or a value arrived at by using the present value of future cash flow valuation model, if unlisted.

Cash and cash equivalents comprise cash on hand and demand deposits and are measured at fair value.

1. ACCOUNTING POLICIES CONTINUED

1.11 Financial instruments continued

Financial liabilities

A financial liability is a liability that is a contractual obligation to deliver cash or another financial asset to another entity or to exchange financial assets or financial liabilities with another entity under conditions that are potentially favourable to the other entity.

Non-derivative financial liabilities that are not designated on initial recognition as financial liabilities at fair value through profit or loss (including interest-bearing borrowings and bank overdrafts) are measured at amortised cost using the effective interest method.

Any difference between the proceeds (net of transaction costs) and the settlement or redemption of borrowings is recognised over the terms of the borrowings in accordance with the accounting policy for borrowing costs, using the effective interest method.

Derecognition

Financial assets (or a portion thereof) are derecognised when the group realises the rights to the benefits specified in the contract, the rights expire or when the group surrenders or otherwise loses control of the contractual rights that comprise the financial asset. In derecognition, the difference between the carrying amount of the financial asset and proceeds receivable, and any prior adjustment to reflect fair value that has been reported as other comprehensive income, are included in the statement of comprehensive income.

Financial liabilities (or a portion thereof) are derecognised when the obligation specified in the contract is discharged, cancelled or expires. On derecognition, the difference between the carrying amount of the financial liability, including related unamortised costs, and amounts paid for it are included in the statement of comprehensive income.

Fair value methods and assumptions

The fair value of financial instruments not traded in an organised financial market is determined using a variety of methods and assumptions that are based on market conditions and risks existing at reporting date, including independent appraisals and discounted cash flow methods. The fair value determined is adjusted for any transaction costs necessary to realise the assets or settle the liabilities.

The carrying amounts of financial assets and liabilities with a maturity of less than one year are assumed to approximate their fair values, as the effects of the time value of money are considered to be immaterial.

Set-off

Where a legally enforceable right to set-off exists for recognised financial assets and financial liabilities, and there is an intention to settle the liability and realise the assets simultaneously, or to settle on a net basis, all related financial effects are set-off in the financial statements.

1.12 Employee benefits

Short-term employee benefit costs

The cost of short-term employee benefits (those payable within 12 months after the service is rendered, such as paid annual leave and sick leave, bonuses, and non-monetary benefits such as medical care), are recognised in the period in which the service is rendered and are not discounted.

The expected cost of compensated absences is recognised as an expense as the employees render services that increase their entitlement or, in the case of non-accumulating absences, when absence occurs.

The expected cost of profit-sharing and bonus payments is recognised as an expense when there is a legal or constructive obligation to make such payments as a result of past performance.

Defined contribution plans

Payments to defined contribution retirement benefit plans are charged as an expense as they fall due.

1. ACCOUNTING POLICIES CONTINUED

1.13 Share-based payments

The cost of goods or services received in a share-based payment transaction are recognised as the goods or services are received.

A corresponding increase in equity is recognised if the goods or services were received in an equity-settled share-based payment transaction, or a liability if the goods or services were acquired in a cash-settled share-based payment transaction.

If the fair value of the goods or services received cannot be estimated reliably, their value and the corresponding increase in equity, are measured by reference to the fair value of the equity instruments granted.

For cash-settled share-based payment transactions, the goods or services received and the liability incurred are measured at the fair value of the liability. Until the liability is settled, the fair value of the liability is re-measured at each reporting date and at the date of settlement, with any changes in fair value recognised in the statement of comprehensive income for the period.

If the share based payments granted do not vest until the counterparty completes a specified period of service, the company accounts for those services as they are rendered by the counterparty during the vesting period, or on a straight line basis over the vesting period.

1.14 Revenue recognition

Revenue comprises the invoiced value for the sale of services, net of Value-Added Tax and discounts and after eliminating sales within the group. Revenue from the sale of airtime is recognised upon broadcasting of the advertising material. Revenue from management fees and rental is recognised evenly throughout the year or as the services are delivered.

Other income

Finance income is recognised in the statement of comprehensive income using the effective interest rate method.

Investment income is recognised in the statement of comprehensive income when the company's right to receive payment has been established.

1.15 Borrowing cost

Borrowing costs are recognised as an expense in the period in which they are incurred. To the extent that they are incurred in respect of a qualifying asset, they are capitalised.

1.16 Segmental reporting

An operating segment is a component of an entity:

- that engages in business activities from which it may earn revenues and incur expenses (including revenues and expenses relating to transactions with other components of the same entity);
- whose operating results are regularly reviewed by the entity's chief operating decision-maker, who has been identified as the executive management, to make decisions about resources to be allocated to the segments, and assesses its performance; and
- for which discrete financial information is available.

Operating segments are identified with reference to their contribution to the group. Due to the nature of the financial information inter-segmental transactions are eliminated.

2. STATEMENTS AND INTERPRETATIONS CONTINUED

At date of authorisation of these financial statements, the following Standards and Interpretations were in issue but not yet effective:

Standard	Details of amendment	Effective from
IFRS 5: Non-current Assets Held for Sale and Discontinued Operations	Annual Improvements 2010 – 2012 Cycle: Amends IFRS 5 to clarify that when an entity reclassifies an asset (or disposal group) directly from being held for sale to being held for distribution (or vice-versa), the accounting guidance in paragraphs 27-29 of IFRS 5 does not apply. The amendments also state that when an entity determines that the asset (or disposal group) is no longer available for immediate distribution or that the distribution is no longer highly probable, it should cease held-for-distribution accounting and apply the guidance in paragraphs 27 to 29.	1 July 2016
IFRS 7: Financial Instruments	Annual Improvements 2012 – 2014 Cycle: The amendments provide additional guidance to help entities identify the circumstances under which a servicing contract is considered to be 'continuing involvement' for the purpose of applying the disclosure requirements in paragraphs 42E- 42H of IFRS 7. Such circumstances commonly arise when, for example, the servicing fee is dependent on the amount or timing of the cash flows collected from the transferred financial asset or when a fixed fee is not paid in full due to non- performance of that asset. Annual Improvements 2012 – 2014 Cycle: These amendments clarify that the additional disclosure required by the recent amendments to IFRS 7 Disclosure – Offsetting Financial Assets and Financial Liabilities is not specifically required for all interim periods. However, the additional disclosure is required to be given in condensed interim financial statements that are prepared in accordance with IAS 34 Interim Financial Reporting when its inclusion would be necessary in order to meet the general principles of IAS 34.	1 July 2016 1 July 2016
IFRS 10: Consolidated Financial Statements	Amendments to address an acknowledged inconsistency between the requirements in IFRS 10 'Consolidated Financial Statements' and these in IAS 28 (2011) 'Investments in Associates' in dealing with the sale or distribution of a subsidiary. Amendments confirming that the IFRS 10.4(a) consolidation exemption is also available to parent entities which are subsidiaries of investment entities where the investment entity measures its investments at fair value in terms of IFRS 10.31. Amendments modifying IFRS 10.32 to state that the consolidation requirements only applies to subsidiaries who are not themselves investment entities and whose main purpose is to provide services which relate to the investment entity' investment activities. Amendments provision relief to non-investment entity investors in associates or joint ventures that are investment entities by allowing the non-investment entity investor to retain, when applying the equity method, the fair value measurement applied by the investment entity associates of joint ventures to their interests in subsidiaries.	1 January 2016

Additional requirements of how entities should present subtotals in the statement(s) of profit and loss and other comprehensive income and the statement of financial position. In addition IAS 28 (2011) has been amended to clarify that when determining whether assets that are sold or contributed constitute a business, an entity shall consider whether the sale or contribution of these assets is part of multiple arrangements that should be accounted for as a single transaction.	1 January 2016
IAS 34: Interim Financial Reporting	Annual Improvements 2012 – 2014 Cycle: The amendments clarify the meaning of disclosure of information elsewhere in the interim financial report and require the inclusion of a cross-reference from the interim financial statements to the location of this information. The amendments specify that this information must be available to users of the interim financial statements on the same terms as the interim financial statements and at the same time, or the interim financial statements will be incomplete.	1 July 2016

In accordance with the group's accounting policy, an impairment test was performed on goodwill at year-end. Budgeted operating cash flows for the related business units were projected based on revenue growth of 2% per annum and discounted at the group's weighted average pre-tax cost of capital. All the business units have the same risk profile, hence the same rate was used. The impairment calculations performed indicated that the goodwill was not impaired.

The investment in Freesport (Pty) Ltd was abandoned in 2015 as the company was making losses with no prospects of profitability and no purchaser could be secured.

There were nil (2015: 50 000) options outstanding at the end of the financial period. No additional options were granted during the year. The incentive scheme is intended to function as a bonus scheme for executive management. On 1 April 2011 the terms of the agreement were amended to allow for cash settled instruments only. This is in line with the actual settlements to date and indications are that all future settlements will be settled for cash as well. The agreement was changed in consultation with management.

The weighted average share price at the date of cash settlement was R100,50 (2015: R84,83)

24. SHARE-BASED PAYMENTS CONTINUED

On 1 April 2013 a new bonus scheme was implemented for executive directors of certain subsidiary companies. This scheme operates as a cash bonus scheme where the bonus is calculated with reference to the share price based on a unit allocation. The vesting period falls over seven years with five vesting tranches per year starting after three years. Each unit allocation has to be exercised at each vesting period as it will not be carried over into subsequent years. 275 000 (2015: 275 000) units were allocated and outstanding at the end of the financial period. The first 20% tranche has vested and will be paid out after year end. The weighted average value was determined at R82,74.

The values of the share options and units were determined using the Black-Scholes Merton Option Valuation Model, for cash settled instruments. The model inputs were as follows:

2016		Grant 5
Share price at reporting date	(R)	78,00
Exercise price	(R)	65,00
Expected volatility	(%)	18,4
Risk free interest rate	(%)	8,70

Intrinsic value	(R'000)	2 344
Directors' interest		
AJ Isbister	(R'000)	213
M Mynhardt	(R'000)	213

The volatility is based on statistical analysis of the daily share prices over the last five years, prior to the reporting date.

The group expects the future volatility of its share price to be in line with the historical volatility.

The values of the share options were determined using the Black-Scholes Merton Option Valuation Model. The model inputs were as follows:

Details of guarantees between the holding company and its subsidiaries are contained in note 30 of these financial statements.

28. FINANCIAL INSTRUMENTS

Credit risk

Financial assets which potentially subject the group to concentrations of credit risk consist principally of cash, short-term deposits and trade receivables. The group's cash equivalents and short-term deposits are placed with high credit quality financial institutions. Trade receivables are presented net of the allowance for impairment of receivables. Credit risk with respect to trade receivables is limited due to the large number of customers comprising the group's customer base and their dispersion across different industries and geographical areas. Accordingly, the group has no significant concentration of credit risk.

In regard to the company, loans to subsidiaries are impaired when necessary, trade receivables are presented net of allowances for impairment. Credit risk with regard to loans to associates are not material to the group.

The carrying amounts of financial assets included in the consolidated statement of financial position represent the group's exposure to credit risk in relation to these assets.

Fair values

At 31 March 2016 and 31 March 2015 the carrying amounts of cash and short-term deposits, receivables, payables and accrued expenses and short-term borrowings approximated their fair values due to the short-term maturities of these assets and liabilities. The carrying value of available for sale assets also approximate their fair values.

28. FINANCIAL INSTRUMENTS CONTINUED

Liquidity risk

The group's and company's exposure to liquidity risk is as a result of the availability of funds to cover future commitments. The group manages its liquidity risk through an ongoing review of future commitments and by monitoring cash flow forecasts. The only financial instruments which expose the group to liquidity risk are interest-bearing borrowings and trade payables, all of which will be paid within agreed credit terms.

The table below analyses the group's and company's financial liabilities into relevant maturity groupings based on the remaining period at the reporting date to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying value as the impact of discounting is not significant.

Capital risk management

The group manages its capital to ensure that entities in the group will be able to continue as going concerns while maximising the returns to stakeholders through the optimisation of the debt and equity balance. The group's overall strategy remains unchanged from previous reporting period.

The capital structure of the group consists of debt, cash and cash equivalents and equity attributable to holders of the parent, comprising issued capital, reserves and retained earnings, respectively.

In order to maintain or adjust the capital structure, the group may adjust the dividend distribution to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

On 14 March 2014 The Supreme Court of Appeal in Bloemfontein ("SCA") delivered its judgement on the National Association of Broadcasters ("NAB") appeal against the judgement of the Copyright Tribunal on the appropriate needletime royalty (subsequently amended on 19 March 2014). The application by The South African Music Performers Rights Association ("SAMPRO") to appeal this judgement was rejected by the SCA. Negotiations are still ongoing to determine if and from which date royalties are payable prior to the judgement date.

The directors consider that adequate provision has been made for this liability under accruals note 13.
